

## Content

Author	1
Abbreviations in MIRCE Science	7
Preface	8
Acknowledgment	16
<b>Part 1: Quest for Crossing the Finish Line</b>	<b>19</b>
Hands-on Experience	20
Meeting in the Car Park at Belgrade Railway Station	20
Grand Prix Bedroom	21
Red Notebook of F1 Failures	22
Monaco Grand Prix	23
Finally, Dream Comes True	23
Monte Carlo Rally	24
What to Study, was the Question	24
Faculty of Mechanical Engineering	25
Faculty of Physics	25
Mechanical Engineering Wins Over Physics	26
Beginning of Studies	26
Auto Motor Club Akademac	27
Car Rallying	28
Second Year of Study	28
Marshalling for Akademac	29
Desire for Hands-on Experience	29
Zavodi Crvena Zastava	30
“Hand-Made” Z750 at Home	31
“Car the Star”, Family Presentations	31
Technical Challenges	32
Day Shift: Seeking for Parts in Belgrade’s Scrap Yards	32
Night Shift: Installations of Parts in Neighbour’s Garden	32
Governmental Technical Test	33
Passport Photo Changing Event	33
June Examinations	33
“Hand-Made” Z750 in the French Riviera	34
Academic Year 1974/75	37
Joining the Rally Drivers Community	38
Converting “Hand-Made” Z750 into a Rally Car	38
Pace Notes and Reconnaissance	39
Water, Fuel or Oil Pump?	40
The First Year of Rally Competition	40
XI April Rally	41
IX YU Rally	43
Summer Examination Period	44
Final Year of Studies	44
V Bar – Beograd Rally	45
Last Lecture of the Undergraduate Studies	48
Second Rally Competition Year	48
XII April Rally	49
X YU Rally	51

The Graduation Dissertation	52
The Graduation Celebration	52
<b>Part 2: Quest for Crossing the Finish Line Knowledge</b>	<b>56</b>
The Industrial Experience	57
Postgraduate Ambitions	57
Postgraduate Studies in Mechanical Engineering	59
Becoming Academic	59
Life Changing Event	60
Return to Belgrade University	60
Reliability Theory	61
Maintenance Theory and Methods	61
Old Habits Die Hard, African Adventure	62
Scholarship for Reliability and Maintenance Studies in Moscow	65
Research Study at MADI	66
Reliability Function	67
Fundamentals of Probability Theory	68
The Museum Lectures on Probability Theory	70
Professor Seynin Visiting Belgrade	73
Farewell to Moscow	73
Master's Dissertation	74
Master of Science Degree	75
English Language is an Absolute Must	76
Arrival to Exeter University	77
Search for "Physical" Approach to Reliability	77
Brief Return to Belgrade	79
Introducing Reliability Engineering to BEng Degree	80
Doctoral Dissertation - Condition Based Approach to Reliability	80
Methodology EXETER' for selecting an Optimal Part-Replacement Policy	81
Becoming Research Fellow at Hull University	82
Doctor of Technical Sciences Degree	82
Return to Exeter University as a Staff Member	83
Publishing the First RCP Paper	84
Creation of the School of Engineering at Exeter University	84
Reliability and Maintenance as a Core Course in Engineering	84
First "Reliability Research Based Holiday" in the USA	85
Establishment of the Research Centre for M.I.R.C.E.	87
Second "Reliability Research Based Holiday" in the USA	88
Visit to the University of Arizona in Tucson in 1990	89
Advance Courses for BEng Students	89
Life Cycle Engineering Course	90
Operation and Maintenance Course	90
Master of Science Programme in Logistics Engineering	90
"Time-Dependent Availability", the Best International Paper in 1992	91
Public Lecturers at the School of Engineering	91
Publication of the book Reliability, Maintainability and Supportability	92
Receiving the Armitage Medal from SOLE in 1993	93
The Best International Paper by S. Hunt & Dr J. Knezevic	93
The Boeing 777 Project	93
The Concept of Chief Mechanic	93

Graduation Project, Life Cycle Considerations in the Design of Boeing 777	94
Lecturer's Tribute to Racing Hero	95
Royal Visit to the M.I.R.C.E. Centre on 11 <sup>th</sup> May 1995	96
Inaugural Flight of the Boeing 777	96
Book: 21 <sup>st</sup> Century Jet, the Making of the Boeing 777, by Karl Sabbagh	97
Receiving the Eccles Medal from SOLE in 1996	99
Master of Science in Reliability and Maintainability Engineering 1996	99
Publishing the Systems Maintainability Book	99
Independence Day for M.I.R.C.E. Centre	100
Master of Science Program in System Operational Effectiveness	100
The World Aviation Congress, October 1997	101
777 Magic Continues	102
M.I.R.C.E. Honorary Fellowship to Nigel Mansell	103
Jack's Nobel Prize Hint	103
Was Jack's "Nobel Prize Hint" Justifiable?	115
The Nobel Prize Thinking	117
What's Next?	118
"Die Is Cast"	121
Closure of the M.I.R.C.E. at Exeter University	121
Centre, School, Academy or even Akademy?	122
The MIRCE Akademy	122
Official Opening of the MIRCE Akademy	123
Inaugural Lecture of the MIRCE Akademy	124
Founder's Lecture "The Size of a Garage"	129
Nigel Mansell's World of Racing	133
F1-RE Centre	134
2000 Polar Expedition	134
Wings Around The World	135
Master Diploma Programme in System Operational Science	135
MIRCE Akademy's First Annual Lecture	135
First Graduation Ceremony of the MIRCE Akademy	136
Voyage To The Ice	138
Impact of VTTI on System Operational Science	148
<b>Part 3: Crossing the Finish Line Conquering Knowledge</b>	<b>149</b>
Scientific Response	150
Origin of the Name MIRCE Science	151
Functionable System in MIRCE Science	152
Functionability States, Actions and Events in MIRCE Science	153
Functionability Performance in MIRCE Science	153
Plan for All Conquering Research	157
Measuring Functionability Work in MIRCE Science	158
Measuring Functionability Costs in MIRCE Science	161
"Future" Functionability Statistics	161
MIRCE Science Axioms	162
MIRCE Science in the Language of Mathematics	163
Functionability Sample Space in MIRCE Science	163
Functionability Field in MIRCE Science	164
MIRCE Space in MIRCE Science	165
Probabilistic Motion through MIRCE Space	166

Negative Functionability Events Generating Mechanisms	167
Positive Functionability Events Generating Mechanisms	169
Sequentially of Functionability Events in MIRCE Science	170
MIRCE Functionability Equation	173
MIRCE Functionability Work	176
MIRCE Functionability Cost	176
MIRCE Profitability Equation	177
The Role of MIRCE Science in Life Cycle Engineering and Management	178
Three State Functionable System Type	179
Concept of Utilisation Process	179
MIRCE Three State Functionability Field	180
MIRCE Operability Equation	180
MIRCE Supportability Equation	181
MIRCE Maintainability Equation	182
Final Mathematical Test	182
MIRCE Equation for Support Work	183
MIRCE Equation for Maintenance Work	184
MIRCE Science Equations for Support and Maintenance Costs	184
Computational MIRCE Science	185
Monte Carlo Method	186
MIRCE Mechanics	187
Worldwide Observed MIRCE Science Events	193
Final Thoughts on Jack's "Nobel Prize Hint"	196
Post Scriptum: MIRCE Science Based Business Case	198
<b>Epilogue: Thanks Jack</b>	<b>200</b>
Hello Jack, as "Hi Jack" is Prohibited Expression in Aviation	201
Grand Fellowship Award to Jack Hessburg	201
"I am ready for you to go home"	203
The Final Email from Seattle	203
16 <sup>th</sup> August 2013: MIRCE Akademy Web Site: "Sad News from Seattle"	204
The 23 <sup>rd</sup> MIRCE International Symposium – December 2013	207
Released for Flight – Jack Hessburg, Chief Mechanic (1934-2013)	208
<b>References</b>	<b>210</b>
<b>Appendix A: My Master Dissertation</b>	<b>211</b>
Analysis of Mathematical Scheme	211
Analysis of Maintenance Costs	211
Development of Maintenance Algorithm	213
Knowledge Disseminations	214
List of Conference and Symposium Papers	215
<b>Appendix B: My Doctoral Dissertation</b>	<b>216</b>
Relationship Between Condition of the System and Reliability	216
Concept of Relevant Condition Parameters	216
Description of Mechanisms of Change in Condition	216
A New Approach to Determination of Reliability	216
Laboratory Testing of RCP Based Approach to Reliability	219

Real Life Testing of RCP Hypothesis	219
Knowledge Disseminations	221
List of Conference and Symposium Papers	222
<b>Appendix C: Collaboration Organisations of the MIRCE Akademy</b>	<b>224</b>
<b>Appendix D: The Emerging Business Buds of MIRCE Science</b>	<b>228</b>
<b>Index of People Featuring in the Book</b>	<b>231</b>
