Justin E. Hale

Regional Director – Product Marketing Boeing Commercial Airplanes

Justin joined the Boeing sales & marketing organization in May 2010 and is currently a regional director in Boeing's Product Marketing team.

Before joining marketing, Justin was a member of 787 program leadership where he served as chief mechanic for the program responsible for managing customer maintenance and operational impacts resulting from design of the aircraft. Justin has held similar positions within the Boeing office of chief mechanics, also serving as chief mechanic during development of the 777-300 and 747-400ER aircraft.

Prior to his work as a chief mechanic, Justin held a leadership position in the 777 airplane integration organization as the zone manager responsible for integration of new customer interiors into the 777 design. Justin joined The Boeing Company in 1991 as a manufacturing engineer responsible for development of factory production systems for the 777 fuselage.

Justin is an FAA licensed aircraft mechanic. Before joining Boeing, Justin worked for Kenmore Air; a part 135 seaplane operator and MRO based in the Pacific Northwest.

Justin is an avid outdoorsman who enjoys mountain climbing fishing and camping with his family. He also enjoys restoring and maintaining classic cars. Justin is active in civic affairs, serving on the boards of directors for his church and a charity organization for families in need in his home community.

Justin and his wife Kathy reside in the Seattle area with their four children.
