Monte Carlo Legends

The Rally Monte Carlo (from 1911 till today)

The **Monte Carlo Rally** is a rallying event organised each year by the *Automobile Club de Monaco*. The rally now takes place along the French Riviera in the Principality of Monaco and southeast France. Previously, competitors would set off from all four corners of Europe and ‘rally’, in other words, meet, in Monaco to celebrate the end of a unique event. From its inception in 1911 by Prince Albert I, this rally, under difficult and demanding conditions, was an important means of testing the latest improvements and innovations to automobiles. Winning the rally gave the car a great deal of credibility and publicity.

The Monaco Grand Prix (from 1929 till today)

The **Monaco Grand Prix** is a Formula One motor race held each year on the Circuit de Monaco. Run since 1929, it is widely considered to be one of the most important and prestigious automobile races in the world, alongside the Indianapolis 500, and the 24 Hours of Le Mans. The circuit has been called "an exceptional location of glamour and prestige." The race is held on a narrow course laid out in the streets of Monaco, with many elevation changes and tight corners as well as a tunnel, making it one of the most demanding tracks in Formula One

The Monte Carlo Experimental Method

The most powerful mathematical method, from the quantum mechanics to risk assessment and biology, for which previous knowledge of mathematics is not needed! The beauty and benefit of this remarkable mathematical method that enabled many mathematically non-solvable formulations of existing physical systems to be solved. This is 90 minutes of pure mathematical pleasure for all of those who never even dreamed that they will ever have to do anything with mathematics.

Individual Tickets are £10.00 per person per Lecture, which includes welcome coffee/tea and biscuits
Family Tickets are £25.00 for parents and kids per Lecture, which includes coffee/tea juice and biscuits
Discounts: £25.00 per person for all three Lectures and £60.00 per family for all three Lectures.
For group discounts please contact us on **01395 233 382** or by email: **quest@mirceakademy.com**

Dr Jezdimir Knezevic, the presenter is the “father” of the Mirce Mechanics and the Founder and President of the MIRCE Akademy, at Woodbury Park. His multi disciplinary theoretical knowledge, huge industrial experience and an endless passion for the subject have attracted over 6000 engineers, managers, analysts and students to his courses and educational programmes in over 40 countries in Europe, Asia, Africa, North and South America and Australia, at universities, professional institutions, industry and government.
